PREFACE

After completing the "copy" for this catalogue for the printer, in glancing it over for corrections and reading over the various headings and skimming over the other descriptive matter, I began to draw a mental picture of the Collection herein offered as it would appear if it would be spread out so that all the coins may be viewed as a whole at one time.

What a grand Numismatic Show it would make!

Here you find the coins of the Ancient Greeks and Romans—many of the names famous in Ancient History—Alexander the Great, Marc Antony, Nero, Vespasian, Ptolemy, Tiberius. Then the coins of the various European, Asiatic and American countries—with coins of Washington, Napoleon and others.

The history of our own country is before us with its coinage from its very beginning—with the New England Colonies—then through its various interesting stages down to date. The Pine Tree, Willow Tree and Oak Tree silver; Colonial coppers; the Washington Half Disme made of silver furnished by President Washington and mentioned by him in his message to Congress.

The Early Gold Coins, many very rare; the beautiful Four-Dollar Gold Piece, etc.

The copper and silver coins of the U. S. with fine Cents of 1793, Unc. 1796, nice 1799 and 1804. Choice and rare Half Cents, rare Dollars, Half Dollars, Pioneer Gold, etc.

The Confederate States—a nation of nine million people that existed within the United States—is represented with the extremely rare and interesting copy of its Great Seal in silver. Over fifteen hundred lots in all!

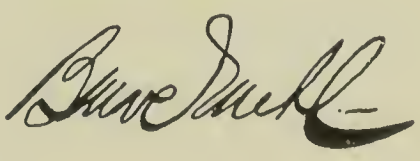
After viewing this grand numismatic "exhibit," can you imagine any coin collector not being attracted by at least one or more pieces?

Here is this "exhibit" for you. True, not the actual coins, but surely a most faithful description of each and every one of them.

Write our your bids NOW and send them in—also NOW!

You will find the actual coins and my catalogue description of them a "perfect match."

Cordially yours,



Fort Worth, Texas, Feb. 1, 1919.

There were twenty members and each received one of these coins. SILVER IMPRESSION OF THE ORIGINAL GREAT SEAL OF THE CONFEDERATE STATES OF AMERICA

1117 Silver Uniface impression of the Great Seal of the Confederate States. Size 95 mm. arranged in a frame under glass in a plush and leather case. This Seal is in beautiful perfect state of preservation. The first that I have ever seen and I do not believe that a specimen has been offered at auction in this generation. Of excessive rariety and historical interest.

Accompanying this Seal is a copy of an autograph letter from the famous British firm of engravers, J. S. & A. B. Wyon, engravers of the original Great Seal of the Confederacy. This letter is sold with the Seal, and reads as follows:

"London, 6th, March, 1874.

To all whom it may concern.

Having received from John T. Pickett, Esqre., Counsellor at Law, of Washington City, in the United States of America, a certain impression of the Great Seal of the Confederate States of America, obtained by the Electrotype process, we hereby certify that the said impression is a faithful reproduction of the identical Seal engraved in 1864, by our

predecessor the late Joseph S. Wyon, Esqre., for James M. Mason, Esqre, who was at that time in London, representing the interests of the Confederate States of which the Seal referred to was designed as the symbolical emblem of sovereignty.

We may add that it has been the invariable practice of our house to preserve proof impressions of all important seal-work executed by us; and on a comparison of the impression now sent us with the proof impression retained by us we have no hesitation in asserting that so perfect an impression could not have been produced except from the original Seal. We have never made any duplicate of the Seal in question.

Witness our hands, the date above given,

(Signed) J. S. & A. B. Wyon."

TERMS OF SALE

PLEASE READ BEFORE BIDDING.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, the first received gets the lot. When two or more unlimited bids on a certain lot are received, the first one received gets the lot at an advance of 5% over the highest bid.

When I receive your bids, I consider myself as your agent and buy the lot for you as much under your bids as the next highest bid will permit. I simply execute your bids for you as faithfully as if you had yourself been present at the sale.

I CHARGE NO COMMISSION FOR EXECUTING BIDS.

Lots sold as catalogued. No lot is broken under any circumstances. Bid by number of lot and at SO MUCH PER PIECE. If there are ten pieces in a lot and you want to offer $1.00 for the lot, make your bid 10c.

I guarantee all coins and notes to be genuine unless otherwise stated in catalogue. This guarantee holds good indefinitely.

NOTICE TO NEW BIDDERS.

Buying coins at auction sales is not the same as receiving coins on approval. The coins are bought for you on your order and you are of course expected to accept and pay promptly for them. Auction purchases are strictly net cash. Be careful in making your bids. Be sure that you bid for the lot you desire and at so much PER PIECE.

TERMS: The terms of auction sales are strictly cash. Parties unknown to me must send a deposit covering at least 25 per cent. of their bids or send satisfactory reference, otherwise they will not be accepted, as I cannot be expected to ship goods to parties whose good standing is not known to me.

Remittance should be made promptly in any way most convenient to yourself.

A neatly printed list of prices of this sale, showing amounts realized for each lot, will be sent for only 50c, CASH WITH ORDER. This is surely the cheapest and best method to keep posted on the prevailing prices of coins.

PLEASE SEND IN YOUR BIDS EARLY. All bids must be in on or before Tuesday, February 18th, 1919.

If you have any coins that you want to sell either at auction or private sale, write me for terms.

An Appreciated Compliment

The following is from the January, 1919, issue of the "Numismatist," the official journal of the American Numismatic Association and the American Numismatic Society:

"MEHL'S NUMISMATIC MONTHLY.

The December number of Mehl's Numismatic Monthly has for its leading articles, "The Cross of Legion of Honor," another installment of Delmont L. Angell's "Numismatic Random Reels," "Substitutes for Legal Money Mark Last Days of German Empire," and a report of the exhibit of Army and Navy devices recently held by the American Numismatic Society in New York City. There is also the usual amount of editorial chat, reports of meetings of societies and clubs, and numerous short articles of timely interest.

With the December number of the Numismatic Monthly closes its ninth volume, and will enter upon its tenth year of publication with every indication of many future anniversaries. The success of the Monthly is well deserved. With the small subscription price and the excessively high cost of printing in these days, we are compelled to wonder how the publisher makes it self-sustaining, even with a large subscription list. But that is no concern of ours, and we will let him do the worrying. The undeniable fact is that it is issued regularly and that each issue contains a good variety of interesting articles on numismatic subjects, making it an entertaining and instructive magazine, suitable for all grades of collectors."

The subscription price of the Numismatic Monthly is only Fifty Cents a year in the United States, $1.00 a year in Canada and Foreign.

NOW is a good time to begin your subscription.
